

The Revelations Video
Wedding Experience

WELCOME FRIENDS

THIS IS US!

Hello bride-to-be and welcome! We hope you're enjoying every moment of being engaged! We're Lindsay and Scott and we're the husband and wife team behind Revelations Video! We're so excited that you found us! We love getting to know our couples personally because we believe that is essential for the best possible experience. So we would love to tell you a little bit about us! Here are a few things you should know!

We met in a class during Lindsay's freshman year at West Chester University.

We live in West Chester, PA but we love to travel!

We started our business after our own personal wedding video got delivered to us without any of the moments that were special to us. We wanted to make sure no other couple had to experience the devastation of losing their irreplaceable memories.

Lindsay's a people pleaser at heart and she's got an imagination much bigger than her 5-foot 3-inch self.

Scott is the master of all things technological but he's also a total goofball.

Lindsay is obsessed with the ocean and all things related to the beach but Scott would spend all of his time camping in the woods by a fire if he could.

We love creating beautiful videos, but more importantly we love serving couples on one of the greatest days of their lives!

Now that you've gotten to know us a bit, flip to the next page to read more about our "Wedding Experience"!

Keep Reading!

The *Wedding* Experience

OUR PHILOSOPHY

You've dreamed about this day ever since you were a little girl. It's been one of your purest, truest dreams for your entire life. Your wedding day is something that can't be re-created or staged.

That being said, we stand firm on our focus of staying candid, natural and real with the way that we shoot. We stay in the background during the events of the day, and we do our best to never interfere with anything that's going on. We may direct you to the good lighting or move the ugly lamp out of the way while you're getting your dress buttoned up or when he's getting his boutonniere pinned on, but that's all just part of the way we look out for you to make sure we give you the highest quality video and photos that we can.

We were in your shoes not that long ago, preparing for our own wedding day. We know how exciting and also how stressful it can be. That is why we love going the extra mile to take care of our couples even months before their wedding day. We are always available to give you recommendations for other vendors you might be looking for, and you should also keep your eye on your mailbox for little goodies here and there.

THE PROCESS

All of our shooting is done in a mix of HD and 4K (Ultra HD) and we shoot the whole day from 2-4 different angles so that you never have to worry about missing a shot because someone walked in front of a camera or the action moved to the other side of the room. Even with 4 cameras, we still manage to stay out of the way and un-obtrusive. That's something we make sure is consistent through our work. We have 4 different audio recording systems that we bring along to every event so that we can capture the highest quality sound for your film, and important words like your vows and the speeches at the reception are crystal clear.

We arrive at your venue 15-30 minutes earlier than you've booked us to begin filming so that we have ample time to set up our equipment and figure out the whole space ahead of time and so we don't take up any of our time with you with anything other than focusing on YOU.

We always connect with your vendors and wedding planner ahead of time so that we are all in great communication with each other and to make sure your day can run as smoothly as possible.

Although our name is 'Revelations Video' we do actually offer photography as well! Both Lindsay and Scott have over 15 years of experience with both videography and photography.

PACKAGES & PRICING

As we mentioned earlier, we got into this whole wedding videography/photography adventure to make sure that no couple would lose their irrepleacable memories like we did. That being said, we've carefully and thoughtfully designed our packages to cover all the bases and to make planning easier by outlining the important moments in a typical wedding day- keeping it simple! But of course, if you have your own ideas and preferences we want to hear them!

You can book us for just videography
or
video+photo together
or
just photography

PHOTOGRAPHY GALLERY

What is a Video Book?

It's a physical book (similar to a photo album) that you can open up and play your wedding video on. You can keep it on display in your home and easily take it out to share with friends and family. It's also a wonderful gift for friends or family who aren't so great with technology. It's rechargeable, customizable, and absolutely beautiful!

FREQUENTLY ASKED QUESTIONS

Q: When can I expect the finished product?

A: We finish most of our wedding films within 4 months of your wedding day (but we send you a sneak-peek very soon after your wedding in most cases). The completion time may vary depending on which package you choose and the time of year that your wedding is filmed. Photos are usually delivered within 3 months.

Q: What is your shooting and editing style?

A: When we shoot, we are really candid. We don't like to stage much and we want you to feel like we're not there. When we edit, we have pretty much the same outlook. We wouldn't call our style cinematic, documentary, or raw...or any of the other kinds of labels. Our mission is to capture your own individual love story that is unique to you. We want your personalities to come out as well as your own quirks and beautiful moments. We don't create any of our wedding films or photos the same. What we CAN tell you is that every wedding collection we complete is professional, real, candid, and natural with a creative touch.

Q: Will you capture our vows and speeches clearly?

A: Absolutely. We have 4 different methods of capturing audio clear as day. We carry backup recorders to every wedding along with every type of cord and microphone needed in order to adapt to any situation.

Q: Can we share our film and photos on social media?

A: Yes! When your film is complete, we will send a digital file to you in an email. That copy can be downloaded and burned to a DVD or flash drive and can also be shared on social media. In addition to this email, we will feature your wedding highlight film in our blog and on our own social media pages so they can be easily shared (and you'll also get 5-minutes of fame!) Photos are delivered on a unique, keepsake flash drive for easy downloading.

WHAT'S NEXT?

We always want to make sure that all of your questions are answered and that we learn everything we can about your vision for your wedding. Lindsay is a regular at every coffee shop within a 20-mile radius of our studio and she loves to treat our brides to a fancy cup of coffee and chat about all of your wedding day plans and answer every single question you have (but mostly to just get to know you and hang out!). But if you're not local to us, a good old fashioned phone date is totally fine as well. Once all of your questions have been answered and you've decided that you've found the perfect fit for your big day, it's time to book!

Booking

Once you've told us which package you've chosen, we will create an online proposal that will walk you through the package. When you're ready, you can reserve your date by signing your contract and paying your deposit online. The deposit is 25% of your complete balance, and the rest of your balance isn't due until 2 weeks before your wedding date.

Fill Us In!

One of our most favorite things to do is serve our couples in whatever way we can to eliminate as much wedding planning stress as possible. That is why shortly after you send your contract back to us, we send you a questionnaire where you get to tell us all the areas of wedding planning that you need a hand with! If you like, we can connect you with our most trusted vendors that we know personally so that you don't have to spend hours searching for people you aren't even sure you can trust, and have much more time to actually enjoy being engaged!

Thank You

We are so glad that you reached out to us! Enjoy every moment of this special time and get PUMPED for your big day because it's going to be amazing! Plan out the details and think through the timeline, but always remember that at the end of the day, you're marrying your best friend and that's all that really matters.

Congratulations on your new adventure and we look forward to hearing from you! Be sure to visit our blog to find tips and tricks for wedding planning and beyond as well as to see our most recent weddings!

Love, Lindsay
& Scott
